

Music City F100s

May 2010 Newsletter Supernationals Issue

LATELY

Wow it has been a couple of years since I last did a newsletter. A few things have happened in that time. A recession started in late 07 it seems and now it appears like we maybe thru the worst part of it.

Me and Ballpeen crossed over the 40 mark last year and we compare almost weekly how it appears our bodies are breaking down ☹! The F100

Supernationals is moving back to Pigeon Forge for the first time since 03. A few project builds have been completed since 08 like Donnie's 56 B/W and Byron's 41 Ford truck. Donald

Music City F100 is a club based in Middle Tennessee, Illinois, Nebraska, New York and the Carolinas. Started in the late 80's, the club purpose is friendship and trucks

CRUISIN

IN THE Garage

In the last "IN the Garage" story I mentioned the 55' F100 Richard was working on. This issues feature is a 56' SW F600 cab I bought out of Augusta, GA last September. Plans call for a build very similar to my 55'. The differences I am thinking of now is rebuilt, Vintage Air, and maybe a 5.0 HO motor versus the 5.0 Speed Density Fuel Injected engine I have in the 55'. I would like to get the firewall straightened and painted along with getting the same in the interior. I have all the sheetmetal with exception to a bed, passenger side rear fender, grille, and radiator

Mark had his annual Weinie Roast on April 10th. There were about 35 people there and 6 trucks. 3 56's, 1 55', 1 54' and 1 53' but who is keeping track. It was a beautiful day for a cookout. Everyone seemed to have had a good time. Leon Basford one of the club members and has been ill. Donnie had an accident with his hand but is recovering well it seems. All the ladies looked well by led by the Birthday girl herself Miss Lela King. Teresa was the life of the roast with her jokes. Plans call for this newsletter to come out at the Pigeon Forge show. The next show of F100 interest will be the GSM F100 Run there in Pigeon Forge on June 24-26. Last year everyone seemed to arrive late Thursday/ Early Friday morning.

40th Birthday

As mentioned earlier I turned 40 last year. So for my 40th Birthday I took a little road trip. I started out by heading south to a swap meet in Birmingham. I left there and went to visit my mom at in Selma. I left there and headed north on I-85 towards Atlanta. While in Atlanta I had a chance to stop by Mike Chesser's place. It was very impressive to say the least. He had a couple of builds

going with plenty of parts to build more. What's even more impressive was how Mike took time out to show me around the place. I was grateful and appreciative of Mike's kindness. I left there and went north to Charlotte visiting Dennis Carpenter and Charlotte Rod and Custom shop in the Charlotte Area before heading back towards Tennessee.

Above are some very good F100 related websites. I find good, funny, and useful information on them all. With some of the vendors the pricing is better on the internet as well. Give it a try I believe you will like what you see and read.

Great Smoky Mountain Run and Shades of the Past

The 09 GSM F100 was a good one. I had a chance to get up early one morning and take cruise in and around Gatlinburg before the traffic got going good. I and some of the members from the F100 internet gang I keep up with took a picture over at Rick Allen's, Carolina Classic Tent. I am looking forward to this year's show.

Picture I took on Gatlinburg Bypass one morning while at the 09 GSM Run

In September I went to the Shades of the Past car show in Pigeon Forge. From what I have been hearing the show will move to Dolly Wood for 2010. There were some nice vehicles there. I had a chance to talk with Mark and Richard at the show as well Dan Carpenter, Pat Ford, and Mike Brown or the "Rainbow Man" as I call him.

Classified

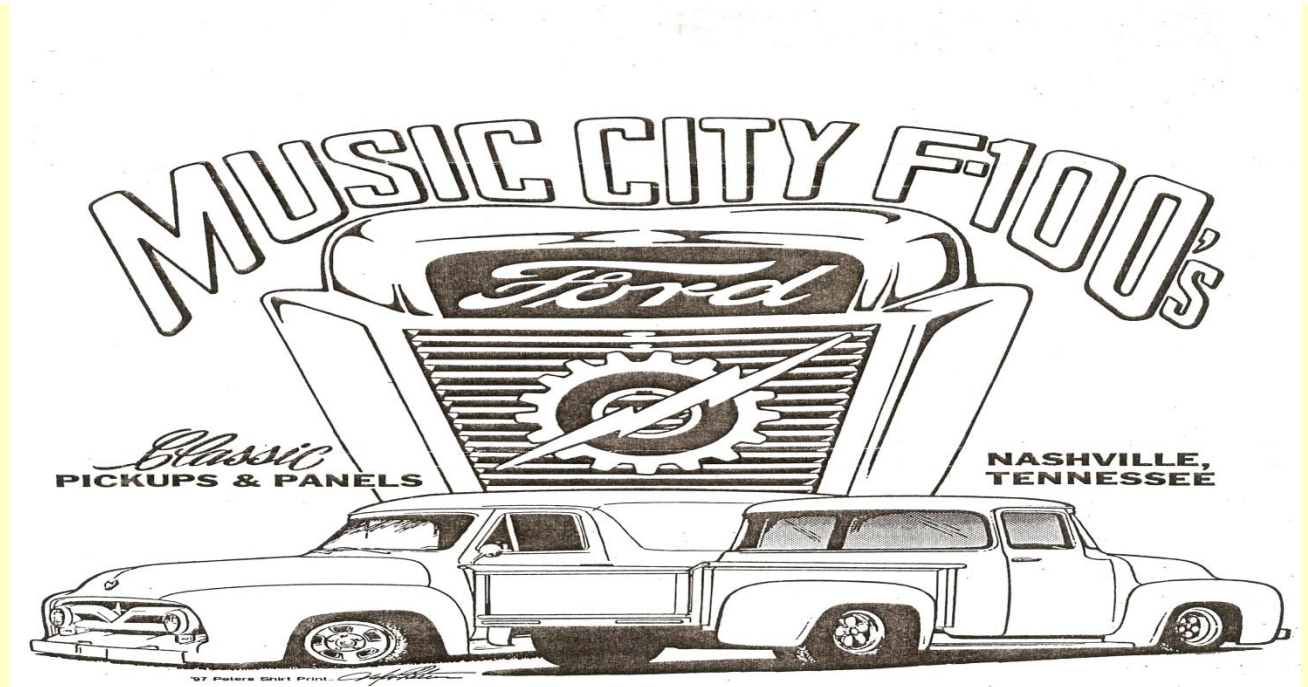

53-55 Dash Bezels - set of 4 - \$10
55 NOS Grill Gull Wings - \$150

\$50 for the pair
Contact number 615-497-7921

Complete Bed with wood but no fenders - \$1000

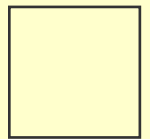

Well that about sums up this version of the newsletter. I hope everyone has enjoyed it or at least liked the pictures, ha ha. I will try to do another one before the GSM F100 Run in late June hopefully with pictures and reviews of the Supernationals and Goodguys show here in Nashville. I hope the newsletter finds you all in good health and peace of mind. In God's care I pray you be.
